

JEBSENS

Jebsens Australia Capability Statement

Capability Statement

Our Business

- Privately owned Maritime Norwegian company founded in 1929
- Head office based in Bergen with Global Company representation
 - Melbourne
 - Manila
 - Princeton
 - Auckland
 - Hong Kong

Specialising in the following activities:

All forms of Australian coastal marine activities

- Coastal shipping
- Tug barging
- Project management from concept to implementation
- Offshore Oil & Gas activities where Jepsens is linked with Olympic Shipping of Norway

Philippine based activities

- Maritime training centre
- 8000 seafarers with over 400 vessels under worldwide management

International Bulk Fleets

- Trans Pacific fleet where Jepsens is linked with MUR Shipping
- Asia / Pacific fleet
- Both fleets are heavily contracted with approximately 2.0m mt shipped annually

Capability Statement

Australian land based logistical activities

- Bulk fertiliser warehousing (including ship to shed management) – regional sites
- Coal briquette cartage into Victorian power stations and key industries – 24/7 (200,000mt)
- Point to point management of container loading / movement / delivery (5000 teu p.a)
- Investigation / implementation of new operations
 - Container packing / distribution
 - Stockpile management
 - Bagging plants
 - Integrated systems

Our Philosophy

- Safety first
- Open book approach
- Develop vertically integrated long term working relationships
- Cost plus management fee for services where applicable

Our Past And Present Partners

- BHPB (geared container vessel under long term contract)
- Nyrstar (combined sulphuric acid / lead & zinc concentrate vessel)
- Incitec Pivot (Self discharging bulk vessel / bulk fertiliser warehouse & bagging plants)
- Koch Industries (Bulk fertiliser warehousing)
- Industrial Energy (coal briquette cartage into Victorian powerstations)
- West Australian Government (contracted multi purpose vessel on the West Australian coast)
 - Cimec / Adelaide Brighton Cement / Rio Tinto / BHPB / Savannah Nickel / Woodside
- Impact Fertiliser (Fertiliser Bulk & Bagging warehouses)

Capability Statement

Where We Want To Go

- Continue to develop our business model around long term working relationships
- Develop the business into the Offshore Oil & Gas sector within Australia / Timor sea / PNG / SE Asia for both marine and land based logistical operations
- Implement Indigenous Australian and Timor-Leste training programs with ongoing employment opportunities
- Double the size of our land based business activities
- Maintain a business model for outsourced third party activities (cost plus management fee approach)
